**Americans for Non-Profit Transparency · Source pack · Her own sheets and slides, checked against each other**  
Source file: HER\_SHEETS\_AUDIT.md, as it stood on 7 October 2026. Published for checking. Internal cross-references to other files were left as written; private names, non-Latin search strings and local file paths were removed. Google Trends dates in this file are what Google returned at the time stated; Trends redraws its sample.

## HER SHEETS AUDIT - her own "FORT HUACHUCA LIST" + Oct 3 slides, checked against each other (2026-10-06)

Task A2. Everything below is HER material: her Canva sheet "FORT HUACHUCA LIST" as shown on Sep 26 (nxbuNswDPpA) and Oct 3 (wmLljWb4bcM), her Oct 3 slide deck (58 slides, "SEPTEMBER 8, 2025 <name> <title>"), her Sep 14 timeline slides, her charts on screen, and her spoken dates. No Google Trends query was run for this audit.

Method: frames pulled from the local source mp4s (danks\_escobar\_work\ana\_src\&lt;id&gt;.mp4) at 1 fps (sheet segments) and 5-10 fps where she scrolled fast; every row below was read BY EYE on the frame (dark magenta rows read on a red-channel contrast crop). OCR was only used to find which frames to look at. Chart dates were pixel-measured from the axis label centres (scripts\peaks.py in the scratch folder); every measured peak landed within 0.2 of a whole day, and on two charts the result matches the date she read out loud at the time, so the ruler is right (+/-1 day). Evidence crops: sheets\_audit (32 files, named by video + rows).

Rules: "by her method X got searched FROM Fort Huachuca" - never "on base"/"was there" except in her quotes. "Not random" = HER claim. No "fraud" as fact. One private individual (row "TPUSA - INTEGRITY SECURITY\*", Aug 28) is named on her Oct 3 sheet but she withheld the name on her slides "for safety reasons" (wmLI 36:30) - written here as [PRIVATE-1]; do not air it.

Her words, Oct 3: <https://youtu.be/wmLjWb4bcM?t=1759> [W]: "We have identified out of hundreds, hundreds and hundreds of individuals searched, a list of 43 people." <https://youtu.be/wmLjWb4bcM?t=1792> [W]: "Out of the 43 people that were the expected folks ... 38 of those individuals all showed up on the same three days. There's only five outliers ... August 28th, September 4th, and September 8th." <https://youtu.be/wmLjWb4bcM?t=1725> [W]: "it wasn't like people were showing up in January, February, March, April, May, June, July. They showed up over the course of three separate days, just three." <https://youtu.be/wmLjWb4bcM?t=1889> [W]: Hadley "our first outlier, he's one of the five of the 43". <https://youtu.be/wmLjWb4bcM?t=3894> [W]: "every single individual ... along with tons, tons, tons more people in the .gov directory, the only ones that show up on September the 8th are the bosses ... James Ruocco, he is the only boss that appears on a different day".

## 7. Findings in detail (new only)

**S1. 43 / 38 / 5 is not on any list she has shown. STRONG**

- Claim: <https://youtu.be/wmLjWb4bcM?t=1759> and [?t=1792](https://youtu.be/wmLjWb4bcM?t=1792) (quotes in section 4).
- Her sheet, same stream: <https://youtu.be/wmLjWb4bcM?t=5717> to [?t=5818](https://youtu.be/wmLjWb4bcM?t=5818) - 46 named people, 25 on the three days, 21 not.
- Her slides, same stream: 30 people, 24 on the three days, 6 off (section 3).
- Sep 26 sheet: 45 / 25 / 20.
- On screen: scroll the sheet with a running tally, then put "43 / 38 / 5" next to "46 / 25 / 21" and "30 / 24 / 6".
- Gap: she may say the 43 is a filtered list she didn't show. Answer: then show it; neither list she did show fits.
- [checker 2026-10-06: confirmed by eye on the header frame (t=5770), rows 11-29, 71-86 and 84-101 crops, and slide contact sheets 0/2/3/6/7; 46 / 25 / 21 recounted. Three additions before airing: (1) She says on camera that the sheet is capped: <https://youtu.be/wmLjWb4bcM?t=5812> [W+C] "did I get to 100? Oh my gosh, it only let me do 101 rows ... I'm going to need like six. Don't worry, I have them". So say "not on any list she has SHOWN", never "her lists can't produce 43/38". Unseen rows could only ADD people (46 already > 43), but they could add three-day rows, so the 38 is "not shown", not "impossible". (2) In the same breath she calls this sheet the proof: <https://youtu.be/wmLjWb4bcM?t=5745> [W] "I wanted to show you guys the meeting because I'm going to show you guys why it is so not random" and [?t=5876](https://youtu.be/wmLjWb4bcM?t=5876) "these are the positive search results ... these dates are not random [HER claim]. They're not like all over the place". Use these as the caption over the tally; it makes S1/S2 her sheet against her words. (3) Deck: 30 named people plus one unnamed AUG 28 "where's the inside man?" slide = 31 / 25 / 6 if he is counted. Her named outliers are Hadley ("our first outlier", [?t=1889](https://youtu.be/wmLjWb4bcM?t=1889)) and Mixon + Adams ("my last outliers really", [?t=3463](https://youtu.be/wmLjWb4bcM?t=3463)); Ragland carries her "\*\*\*" mark. Erika (Sep 6) and Kolvet (Sep 7) are off the three days but she presents them as part of the pattern, not as outliers.]

## S2. "Not June, July ... just three days" vs her own June/July rows. STRONG

- <https://youtu.be/wmLjWb4bcM?t=1725> vs her sheet 1:35:17-1:36:58 (rows 5, 18, 20, 72, 74, 76, 78-81, 84, 85 = Jun/Jul).
- Overlaps D4 only for Erika's Jul 13 row; the count (12 Jun/Jul rows, 34 of 59 off the three days) is new.

## S3. "Only bosses on Sept 8" vs her own Sept 8 slides. STRONG

- <https://youtu.be/wmLjWb4bcM?t=3894> vs slides "Butch Hibbs CALVARY CHURCH (ROLE UNKNOWN)" (1:07:24) and "Justin Davis INTEGRITY SOLUTIONS (THE SECURITY GUY) AND THE DRIVER OF THE SUV" (1:28:20); and "Ruocco ... only boss on a different day" vs Cooper "COMMANDER OF CENTCOM" on her Aug 28 slide, Adams "DIA OUTGOING DIRECTOR" on her Sep 5 slide.
- Care: Hibbs and Davis are private individuals. Show her slide text; don't add anything about them.
- [checker 2026-10-06: quote and both slides confirmed by eye (contact sheets 3 and 7). Know her answers first: (a) on Hibbs she says herself "why exactly Burton Hibbs popped up on our list? Well, it remains an open question" (<https://youtu.be/wmLjWb4bcM?t=4108>), so she will call him a flagged exception; (b) Davis is presented separately as "the inside man" ([?t=5300](https://youtu.be/wmLjWb4bcM?t=5300)), not as a boss; (c) "boss" is her own label. She captions Cooper "military guy" ([?t=2005](https://youtu.be/wmLjWb4bcM?t=2005)), not boss, so the Cooper/Adams half is our reading of "boss". The literal contradiction (a Sept 8 slide captioned "(ROLE UNKNOWN)" under "the only ones that show up on September the 8th are the bosses") stands. Lead with Hibbs/Davis, keep Cooper/Adams as a secondary card.]

## S4. Bordine: Sept 7 in July, Sept 8 by October. STRONG

- Jul 9 <https://youtu.be/bmjVylJelZc?t=2102> [W]: "we have Christine Bourdain, D-D-I-A, Christine Bourdain. They're looking at her image on September 7th."
- Her chart on screen <https://youtu.be/bmjVylJelZc?t=2555> (Tucson (Sierra Vista) AZ, 5/1/25-9/9/25, Image Search): "D-DIA Christine B..." peaks **Sept 7** (x=1792.5; labels May 1 x=325, Jun 16 x=847.5, Aug 1 x=1370.5; 11.36 px/day; fit 129.13 days). Frame: `receipts\sheets_audit\jul9_bordine_kindl_chart_t2555.png`.
- Sep 26 + Oct 3 sheets: BORDINE, CHRISTINE - Sep 8. Oct 3 slide "SEPTEMBER 8, 2025 Christine Bordine ... (THE TECH BOSS)" and <https://youtu.be/wmLjWb4bcM?t=3924> [W]: "On September 8th, I also have Christine ... the tech boss".
- Why: she moved her own reading by one day onto the day her theory needs ("only bosses on the 8th").
- Gap: a later, different Bordine string could have hit Sep 8 off camera. Ask her for it.
- [checker 2026-10-06: confirmed. Frame re-measured by colour: blue peak x=1792 = Sep 7.0; her words at <https://youtu.be/bmjVylJelZc?t=2110> agree in Whisper AND captions ("They're looking at her image on September 7th"). The only other Bordine string on screen anywhere ("D-DIA Christine B...", no space) is Aug 30 on the Jul 9 chart AND on her Stew chart (a1ObeHOaq1k @2491, axis visible). No Bordine spike on Sep 8 appears in any scanned frame.]

## S5. The Palantir tag was added by her between Sep 26 and Oct 3. STRONG (new receipt for D10)

- Sep 26 sheet (<https://youtu.be/nxbuNswDPpA?t=1281>): "TPUSA - SPOKESMAN | KOLVET, ANDREW THOMAS | Jul 1 / Sep 7"; "EVENT: ISRTF KOLVET ON FORT H LOG | Jul 8"; "EVENT: ISRTF JOHNNIE MOORE ON FORT H [LOG] | Jul 13"; "EVENT: JDA ERIKA F ON FORT H LOG | Jul 13"; "ONDAS/PLTR - FOUNDER / DOD ISRTF | KARP"; "ONDAS/MOSSAD - FMR DIR | BARNEA | Sep 8".
- Oct 3 sheet (<https://youtu.be/wmLjWb4bcM?t=5789>): Kolvet x3 "KAIROS / JDA / ISRTF-PLTR / TPUSA"; Moore Jul 13 "KAIROS / JDA / ISRTF-PLTR / UNIFYD"; Erika Jul 13 "KAIROS / JDA / ISRTF-PLTR / TPUSA"; Karp "ISRTF-PLTR"; Barnea "FMR DIR / ISRTF"; new "DOD ISRTF-PLTR CERBERUS | FEINBERG".
- Same stream: <https://youtu.be/wmLjWb4bcM?t=3611> [W] "why would this API log think that Andrew Colfatt had anything to do with Palantir?" and Sep 26 <https://youtu.be/nxbuNswDPpA?t=1637> "no one should think that Johnny Moore is a part of a Palantir recon task force. And yet the way that he appears, somebody thinks that he's related to them."
- Why: her own week-old sheet called Kolvet "TPUSA - SPOKESMAN". The Palantir label is hers, added between streams.
- [checker 2026-10-06: CORRECTED. Don't say the ISRTF/Palantir link to these people first appeared that week. The Sep 26 sheet (crop `sep26_sheet_part3.jpg`, rows 36-41, seen by eye) already had "EVENT: ISRTF KOLVET ON FORT H LOG" (Jul 8), "EVENT: ISRTF JOHNNIE MOORE ON FORT H ..." (Jul 13) and "EVENT: ISRTF-PLTR ELIZAVETA ON FORT H [LOG]"; Erika's Sep 6 row already read "TPUSA / JDA / ISRTF-PLTR" (part7); Karp

already read "DOD ISRTF" (part6). What actually changed between Sep 26 and Oct 3, sheet to sheet: Kolvet's TITLE cell went from "TPUSA - SPOKESMAN" to "KAIRO / JDA / ISRTF-PLTR\* / TPUSA"; "-PLTR" was added to Moore's and Karp's titles; "ISRTF" was added to Barnea's Sep 8 title; Feinberg's 3 rows are new. So the line is: "Her own sheet called him a TPUSA spokesman a week earlier. The Palantir tag in his title is in her handwriting, and it was already in her event rows. She typed the tag herself, then asked why 'the log' thinks it." The quote at t=3611 is confirmed in captions too ("why would this API log think"). Strength: STRONG as a receipt for D10, not as proof of a new invention that week.]

#### **56. Sep 14 timeline vs Oct 3 meetings (Rafael/Mossad and Fort Bliss). STRONG (slides) / MEDIUM (chart)**

- Sep 14 timeline slide <https://youtu.be/an6dnXjnYwg?t=3227>: "AUGUST 28 - 31 R&D AND DIA TEAMS VISIT FORT HUACHUCA"; "SEPTEMBER 4 RAFAEL AND MOSSAD ARRIVE AT FORT HUACHUCA". <https://youtu.be/an6dnXjnYwg?t=3337>: "SEPTEMBER 5 HADES TEAM AND SNC ARRIVES FORT HUACHUCA"; "SEP 7 - 8 DEMONSTRATION TEAM ARRIVES AT FORT HUACHUA INCLUDING BOSSES AND TRANSPORT TEAM"; "SEPTEMBER 9 'THE BIG MEETING' DEVICE DEMONSTRATION AND HADES DEMONSTRATION at FORT BLISS". Spoken <https://youtu.be/an6dnXjnYwg?t=3278> [W]: "On September 4th, we know that Raphael and those Mossad members, they start to arrive on post. On the 5th, that is the day that our Hades team arrives on post."
- Oct 3: Rafael's Idan and Har-Evan on AUGUST 28 "Meeting One"; Mossad director on SEPTEMBER 8 "THE MOSSAD BOSS"; SNC HADES lead Walsh on SEPTEMBER 4; "Meeting Three" Sep 9 with the Fort Huachuca "log" on Sep 8 (<https://youtu.be/wmLjWb4bcM?t=3740> "although the meeting took place on the 9th, the expected digital log would appear on the 8th ... SAM 702 flight pull up to Fort Huachuca"). Her sheets have no Mossad row on Sep 4.
- Her Sep 14 chart (<https://youtu.be/an6dnXjnYwg?t=2549>, 1/1/25-9/9/25, Image; label Mar 29 x~1180, tooltip Jul 12 x~1582, 3.82 px/day): "Dr. Irit Idan Rafael" Jul 11, "Yoav Har Even ONDAS" ~Jul 17-18, "D-DIA David Barnea" ~Aug 30, "Oshri Lugassy" Jul 4 + Sep 4 (+/-1 day). Frame: [receipts\sheets\\_audit\sep14\\_ondas\\_chart\\_t2545-2573.jpg](receipts\sheets_audit\sep14_ondas_chart_t2545-2573.jpg).
- Why: three weeks apart her own slides put the same people on different days and the "big meeting" at a different base.
- [checker 2026-10-06: CORRECTED, downgrade to MEDIUM. Slides at t=3227 and t=3337 confirmed by eye, and the t=3278 quote. But two parts don't hold: (a) RAFAEL: no contradiction. Oct 3 keeps Rafael on Sep 4 (Oshri Lugassy "PRESIDENT OF RAFAEL AUTONOMOUS SYSTEMS", SEP 4 slide), and the same Sep 14 timeline says "AUGUST 28 - 31 R&D AND DIA TEAMS VISIT", which fits Idan (Rafael R&D) and Har-Evan on Aug 28. Drop "Rafael people moved to Aug 28". (b) FORT BLISS: weak. In the same Sep 14 stream she says SAM 702 went to Fort Bliss "on the way home from the Fort Banana meeting" (<https://youtu.be/an6dnXjnYwg?t=2219>), and on Oct 3 she gives the same route: "they stopped before Fort Huachuca, Colorado Springs, and after Fort Huachuca, Fort Bliss" (<https://youtu.be/wmLjWb4bcM?t=9612>). The "big meeting ... at FORT BLISS" slide text clashes with her own words that day, not really with Oct 3. Use it only as a slide-wording card. What stands: "SEPTEMBER 4 ... MOSSAD ARRIVE" (neither sheet has any Mossad row on Sep 4, Barnea is Sep 8 "THE MOSSAD BOSS" by Oct 3, and her own Sep 14 chart puts "D-DIA David Barnea" at ~Aug 30) and "SEPTEMBER 5 HADES TEAM AND SNC ARRIVES" (no HADES/SNC row on Sep 5 on either sheet; the SNC HADES lead Walsh is Sep 4). Chart reads (Idan Jul 11, Har-Evan ~Jul 17-18, Barnea ~Aug 30) were re-checked on the crop: only one axis label (Mar 29) plus the Jul 12 tooltip line, 3.8 px/day, so +/-1-2 days.]

#### **57. Adams' date never holds still; 5 of 7 spikes dropped. MEDIUM-STRONG**

- Quotes and chart in section 5. Measured: labels May 1 x=345, Jun 16 x=876.5, Aug 1 x=1408.5 (11.56 px/day); yellow Jul 18 + Sep 6, blue Jul 28, red Aug 9, purple Sep 4, green ~Jul 23-25 (two spikes, by eye).
- Her "Sept 4th through Sept 6th" read matches the purple/yellow spikes - so the ruler is right.
- Why: same man, same day's stream, "Sept 4-6" then "Sept 8"; later "Aug 10" + "Sep 5"; the July spikes on the same chart never reach any list ("they were looking from September 3rd on", <https://youtu.be/bmjVylJelZc?t=2130>).
- Already filed: D5 (his title). This is the date side.
- [checker 2026-10-06: confirmed. Re-measured all 7 peaks on [jul9\\_adams\\_chart\\_t2017.png](jul9_adams_chart_t2017.png): Jul 18, 23, 25, 28, Aug 9, Sep 4, Sep 6 (each within 0.1 day). Timestamp fix: the "Rain Man Adams looks like on September 8th" line is at <https://youtu.be/bmjVylJelZc?t=2247> (captions 2250.0-2252.4); t=2259 starts just after it. Whisper and captions agree. Note the sheet's Aug 10 sits one day after the "Lt. Gen. James H..." spike (Aug 9). That is the same one-day pattern as S4/S10, but small.]

#### **58. Two meeting-date rules in one deck; the Sep 9 person is dropped. MEDIUM**

- Slides: "AUGUST 28, 2025 Meeting One" (33:16), "SEPTEMBER 4, 2025 Meeting Two" (37:02), "SEPTEMBER 9, 2025 Meeting Three" (1:01:36) whose people are all on "SEPTEMBER 8" slides; rule stated at <https://youtu.be/wmLjWb4bcM?t=3740>.
- Sheet row 10 "DOD DIA DIR COS | KIRCHOFFER, JOHN\* | Sep 9" (the only FH row on Sep 9) is not in the 30-person deck.
- Why: if the log runs a day ahead of each meeting, meetings one and two would be Aug 29 and Sep 5; if it doesn't, the Sep 9 row is the meeting-day row and she leaves it out.
- [checker 2026-10-06: CORRECTED, downgrade the "two rules" half to WEAK. She gives a reason on camera: "You're not going to fly from Joint Base Andrews all the way to Colorado Springs, all the way to Arizona and be there at a 6 a.m. meeting. You have to come the night before" (<https://youtu.be/wmLjWb4bcM?t=3807>). A 6 a.m. meeting with fly-in guests is a reasonable one-off, so "two rules" is easy for her to answer. What stands (MEDIUM): sheet row 10 KIRCHOFFER Sep 9 (seen by eye on [oct3\\_sheet\\_header\\_t5770.jpg](oct3_sheet_header_t5770.jpg)) is the only FH row on the meeting day, he is the DIA chief of staff, and he's not in the 30-person deck. Show the row, then ask why the one person logged on the meeting day itself is left out.]

#### **59. "JOS" / "JOE" / "Laurence" Mixon. MEDIUM**

- Sep 26 sheet row 20 "MIXON, LT GEN JOS" (<https://youtu.be/nxbuNswDPpA?t=1148>); Oct 3 row 22 "MIXON, LT GEN JOE" (<https://youtu.be/wmLjWb4bcM?t=5779>); Oct 3 slide "Laurence Mixon - RECON TASK FORCE PURCHASER (THE ARMY BUYER)" and <https://youtu.be/wmLjWb4bcM?t=3300> "this is Lawrence Mixon ... the guy who's going to make the decision for the Army".

- Why: her own row and her own slide don't agree on who the Sep 5 "visitor" is. Don't state who the real officer is on air without a sourced check; the point is her two documents disagree.

## S10. Kindl and Kirchoffer one day off her own charts. MEDIUM

- Kindl: "D-DGI Martin Kin..." **Aug 29** on <https://youtu.be/bmjVylJelZc?t=2555> (measured, fit 120.07 days) and ~Aug 29 on the Stew chart replayed at <https://youtu.be/a1ObeHOaq1k?t=2520>; sheets + slide: Aug 28 ("Meeting One").
- Kirchoffer: Jul 9 <https://youtu.be/bmjVylJelZc?t=2259> "what Kirchhofer looks like? On September 7th"; Stew chart ~Sep 9 (spacing estimate, axis hidden); sheets Sep 9.
- Honest limit: +/-1 day, and Kirchoffer may be a slip of the tongue. Use only next to S4 (where her own words confirm the read).
- [checker 2026-10-06: confirmed, plus additions. The Kirchoffer chart date doesn't have to be a "spacing estimate": the same Stew chart is on screen with its axis visible at <https://youtu.be/a1ObeHOaq1k?t=2491> (frame ana\_scan\out\1ObeHOaq1k\002491.jpg; terms "COSJohn Kirchho...", "D-DIACChristine B...", "D-ASWShahab C...", "ASW(A)James Ru...", "Lt Gen Adams"; Tucson (Sierra Vista) AZ, 8/1/25-9/10/25, Image Search). Labels Aug 16 x~1284 / Aug 31 x~1611 = 21.8 px/day; plot end x~1829 = Sep 10 (check passes). Measured: Kirchoffer Sep 9 (matches sheet), Lt Gen Adams Sep 4, Bordine (no-space string) Aug 30, and NEW: "D-ASWShahab C..." **Aug 30** (yellow, under the red peak) and "ASW(A)James Ru..." **Sep 3** (green). Her sheets and slides put Chaudry on Aug 28 ("Meeting One") and Ruocco on Sep 4 ("Meeting Two"). That's two more people whose only on-screen chart sits off her meeting day (2 days and 1 day), and it is in no CONTRADICTIONS\_\*.md file. Same limit: +/-1 day, and a different string could have hit off camera. Use as a supporting card with Kindl. Kindl ~Aug 29 on the 2520 frame also holds if the plot geometry matches the 2491 frame (Aug 1 x~957, 8/1-9/9 = 22.4 px/day -> Kindl Aug 29.0).]

## 8. Not new (already in CONTRADICTIONS\_\*.md) - cross-references only

Image-Search chart = Sep 6, measured). Hansell -> D7/F2. Harpole/Harpoon -> D8/F3. ISRTF-PLTR authorship -> D10 (S5 adds the sheet-to-sheet receipt). ONDAS / FMR -> F2. Sims label -> F3 (gap stays open). 43/38/5 quote -> G1 (S1 adds the count). - CONTRADICTIONS\_FRAMES G3 says Davis ~Sep 8 "Web Search (kweYmsUrEUM @1264)". The frame at t=1264 is IMAGE Search with Davis on **Sep 6**; the Web Search chart (with "J. William Rivers F..." and "Brian Harpole Sec...") is at t=1225-1233. Fix the timestamp in G3. [checker 2026-10-06: confirmed. I extracted t=1233 from ana\_src\kweYmsUrEUM.mp4: Web Search, 8/1/25-9/9/25, labels Aug 1 x~374 / Aug 15 x~897 / Aug 29 x~1419 (37.3 px/day). "Justin Davis" = Sep 8.0, so G3's date is right and only its timestamp is wrong (should be ?t=1233). The t=1264 Image chart re-measures to Bailey Sep 4.0, Davis Sep 6.0. Extra, not yet filed: on the same t=1233 Web Search chart, "Andrew Bailey" peaks **Aug 12** (x~786), a second Bailey date that is on neither sheet. Section 5 marks Bailey "consistent"; that holds for Image Search only. G3 itself is NOT edited here (outside this file); the owner of CONTRADICTIONS\_FRAMES.md should change "@1264" to "@1233".] - [checker 2026-10-06: PRIVACY. Receipt crop receipts\sheets\_audit\oct3\_sheet\_rows84-101.jpg (wm/005818 half) shows [PRIVATE-1]'s name in row 97 unblurred. Blur row 97 before this crop goes into any edit; the source frame at <https://youtu.be/wmLjWb4bcM?t=5818> needs the same blur.]

## 9. Honest gaps

1. We only see what she scrolled past on camera. Off-camera loads/strings could hold other dates (S4, S7, S10). Her own July words match our chart reads, so the on-camera record is what we hold her to.
2. "43" may be an unshown list. Neither list she showed fits.
3. Titles and tags are her labels, not the typed term, except where section 6 shows the box.
4. Chart reads are +/-1 day (S6 Sep 14 chart is the loosest at 3.8 px/day).
5. Dates of existing rows did not change between Sep 26 and Oct 3. Don't claim she edited dates.
